Paramount **ROSES**

Paramount is our name, and we do believe that paramount describes our Roses. Here in southeastern Pennsylvania Nature provides ideal soil and growing conditions, and we cooperate fully with her in producing the best Rose bushes you can buy. We give them the best care in the world and ship them to you in the pink of condition.

If you have never tried Paramount Roses, we urge you to send us an order at once. Our old customers know they will receive the same service and consideration that has kept them coming back to us through the past.

Not everyone realizes that in this section of the country, fall is the ideal time to plant Roses. Now they are full of vitality, freshly dug from the fields and ready to go right on growing in your garden. **ORDER NOW** and we will ship the plants to you at the proper planting time this fall.

In any combination desired • DELIVERY FREE

These are the best of the older kinds, all tested for years and found generally satisfactory everywhere. Some, like Kaiserin Auguste Viktoria, go back to the "Gay Nineties," while others are more recent. They are all monthly bloomers and are the mainstays of every garden.

AMI QUINARD. Blackish maroon, opening into semi-double flowers of rich velvety red, with blackish luster. Flowers have 17 petals. Strong, upright grower with old-time fragrance.

AUTUMN. Radiant burnt-orange, Richly colored, exquisitely formed buds open to fragrant flowers in a rainbow of colors—red, orange, yellow and pink. Perfectly upright grower, very vigorous. Active bloomer. Very full flower with 70 petals.

BETTY UPRICHARD. Two-tone—salmon and carmine. A very free and steady bloomer, unusually vigorous. Buds are long-pointed, on a good, heavy stem. Sweetly fragrant.

CONDESA DE SASTAGO. Rich yellow buds unfold to copper-colored blooms with yellow on the reverse; fully double, with alluring raspberry fragrance. Exceptionally vigorous and supremely bushy. 50 petals.

COUNTESS VANDAL. Copper and salmon, suffused with soft yellow. Long-pointed buds; full, fragrant flowers. Vigorous, upright plant; blooms unceasingly. A superb Rose for cutting.

CRIMSON GLORY. Deep, velvety crimson. Rich in color, perfect in form and delightfully fragrant. Thrifty and a free bloomer. One of the most popular Roses today.

EDITH NELLIE PERKINS. One of the older two-tone pink Roses and still a good one. Outside Orient red shaded cerise-orange; inside salmon-pink. Double and fragrant. Vigorous, bushy plant.

EDITOR McFARLAND. Deep pink that does not fade. Large flowers of excellent form on long stems; long lasting when cut and slightly fragrant. Plant is unusually vigorous. One of the best pinks.

KAISERIN AUGUSTE VIKTORIA. Cream-white, with greenish tint in the center. Large and perfectly formed blooms, fully double, on long stems; richly fragrant. Constant bloomer with healthy foliage. 99 petals.

McGREDY'S SCARLET. Velvety, brilliant scarlet. A stout grower, bearing large flowers of excellent form on long stems. Liberal producer with tough constitution. A very satisfactory Rose.

HYBRID TEA ROSES

STANDARD KINDS, *continued*

MME. COCHET-COCHET. Coppery pink. Beautiful form, exquisite coloring, sweet fragrance. Splendid grower, free-flowering. Good for bedding and cutting.

MRS. E. P. THOM. Clear yellow of uniform color. Vigorous and upright plant habit. Full, double flower, sweetly scented.

MRS. P. S. DU PONT. Golden yellow, long-pointed buds and flowers in great profusion; spicy fragrance. A low grower but stoutly built. A prolific bloomer, like a Floribunda.

POINSETTIA. Rich scarlet, even and distinct. Beautifully shaped buds and large, brilliant blooms, slightly fragrant. Tall, healthy grower; profuse bloomer. A very fine Rose.

RADIANCE. The most dependable Rose in America. Brilliant carmine-salmon with reverse rose color. Its thrifty habit of growth and rugged character reach perfection. Produces a host of large flowers with true Rose fragrance.

RED RADIANCE. Clear, genuine red. The counterpart of Radiance and its inseparable companion in the garden. Has all the qualities of Pink Radiance but a richer color.

SISTER THERESE. "The Little Flower." Golden yellow; bud touched with orange-carmine. Exquisite, long-pointed bud, making a fine, fragrant cut flower. Active grower with a spreading habit. A very free bloomer.

TALISMAN. The first of the multicolor Roses and still very popular. Golden yellow and coppery flowers, not very large but very distinctive. Especially good in the fall.

Floribunda ROSES

LARGE-FLOWERING BEDDING ROSES

Floribundas are top-notch for borders and general mass planting. They grow taller and much bushier than Hybrid Teas, and the plants are simply covered with masses of bloom in one wave after another all summer long. They are most effective in beds or borders of one variety. Blooms are carried in clusters; some varieties are semi-double, some very double, and others are like perfect miniature Hybrid Teas. Floribundas are very easy to care for and will repay you many times over for the space they occupy.

BETTY PRIOR. Bright red buds open to single flowers of shell-pink, giving a glorious two-tone effect resembling pink dogwood. Prolific. Grows to 3 feet. *Pat. No. 340.* \$1.50 each; 3 for \$3.95

FLORIBUNDA ROSES, continued

CARROUSEL. An attractive new Floribunda with fragrant, dark red flowers of moderate size, with about 20 petals. Useful both in the garden and for cutting because it is so long lasting. Unusually vigorous and upright plant. *Pat. No. 1066.* \$2.00 each; 3 for \$5.35

FASHION. A gay new color—warm Oriental-red buds 1950 becoming sparkling coral-pink suffused with gold. Blooms from June to frost. Delicate fragrance.  *Pat. No. 789.* \$2.00 each; 3 for \$5.35

FLORADORA. Dazzling bright cinnabar color with 1945 shades of scarlet. Buds are exquisitely formed, produced in profusion on a neat, symmetrical bush.  Foliage glossy olive-green. Grows to a height of 2½ feet. \$1.50 each; 3 for \$3.95

GOLDILOCKS. Rich golden yellow. Very double blooms, 3 inches across. Spreading, bushy; dark foliage. *Pat. No. 672.* \$1.50 each; 3 for \$3.95

IRENE OF DENMARK. A very good new white Floribunda that we highly recommend. Very pleasingly formed flowers of dainty "Sweetheart" shape; double and graceful when fully open. Very hardy; strong and bushy. *Pat. No. 889.* \$2.00 each; 3 for \$5.35

KING BOREAS. A good yellow Floribunda blooming almost continuously from June to frost. Nicely formed buds and flowers, lasting long both on the plant and when cut. Holly-like foliage on a vigorous plant. \$1.50 each; 3 for \$3.95

LILIBET. A dainty new prize-winning Floribunda with 1954 a model plant. Flowers are borne in clusters, with the color ranging from light rose to soft dawn-pink.  Very hardy, with heavy foliage. Blooms all season. *Pat. app. for.* \$2.50 each; 3 for \$6.75

MA PERKINS. Charming salmon-shell-pink flowers of 1953 Hybrid Tea form. Large, double, very fragrant. A bushy, vigorous plant 2½ to 3 feet tall, blooming freely.  *Pat. No. 1143.* \$2.25 each; 3 for \$6.25

MARIONETTE. A fine white Floribunda for mass planting, with hundreds of flowers on every bush. Fully double, creamy yellow buds, turning pure white. Blooms all season. *Pat. No. 569.* \$1.50 each; 3 for \$3.95

MRS. INGE POULSEN. Apricot-pink flowers of medium size, with about 30 petals. Fragrant. A very vigorous, upright plant, blooming profusely. *Pat. No. 1050.* \$1.50 each; 3 for \$3.95

PERMANENT WAVE. An outstanding Floribunda with bright carmine, wavy-edge petals. Large, semi-double. Dark, glossy foliage. Very bushy and decorative. \$1.50 each; 3 for \$3.95

 \$1.50 each; 3 for \$3.95

Hybrid Perpetual ROSES

These are the large-flowered, June-blooming Roses. They are hardy and disease resistant and make splendid bedding plants. The two varieties we offer are famous Roses of real value.

FRAU KARL DRUSCHKI. The white American Beauty. Snow-white blooms of immense size, fully double and of perfect form. Very hardy and vigorous. Good for exhibition.
\$1.50 each; 3 for \$3.95

HENRY NEVARD. A well-formed, crimson-scarlet bloom with 30 petals. Sweetly fragrant. Blooms in June and again in the fall.
\$1.50 each; 3 for \$3.95

Hardy Climbing ROSES

Climbers are excellent for mass decoration and splendid for backgrounds in the garden. They give the largest quantity of blooms for your money and have many uses. They can be trained against a fence, on a pillar or against a garage, and may be left to trail on a sloping bank. They need the least protection and attention of any group of Roses.

ALOHA. Large, beautiful rose-pink blooms carried in long-stemmed clusters. Very full and double, perfectly formed. Blooms in June and often during the whole summer. A profuse producer making a wonderful showing. *Pat. No. 948.*
\$2.50 each; 3 for \$6.75

BLAZE. The everblooming Paul's Scarlet Climber. Bright scarlet color that holds well. Masses of large, well-shaped flowers on long stems. At its best when trained on a pillar or post. Blooms in midseason and repeats during the summer and fall.

HOW TO PLANT ROSES

Rose beds should be prepared well in advance of the arrival of the plants.

Roses require sun, at least half of the day. Protection from strong winds is also desirable. The beds should be placed where the soil is naturally well drained, or drainage should be provided. The soil should be good garden loam. If it is poor, remove the top 8 to 10 inches, spade up the bottom, mixing in some good manure and replace the top portion with good top-soil, letting it settle well before planting.

The Roses should be planted about 12 to 15 inches apart each way, varying the distance somewhat, depending on the vigor and spread of the varieties selected.

All Roses should be planted as soon as received. But the bundles can usually be kept intact for a week, if kept in a cool dark place. If delayed in planting for more than one week, remove the plants from the bundles, and hill them in carefully in a shady and moist place, until wanted.

When planting in the fall, no pruning is necessary but cutting back to 6 to 8 inches can do no harm. Immediately after planting, hill the soil around each plant for at least 6 inches.

When planting in the spring, trim the branches back to 4 to 5 inches. If planting late in the spring, when it is warm, and it often is after the middle of April, hill the soil up slightly and keep the plants shaded from the sun for several weeks; water well each day.

Full planting directions are sent with each shipment, and one should read them carefully before proceeding with the job.

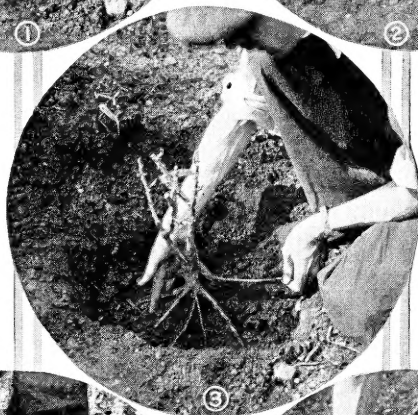

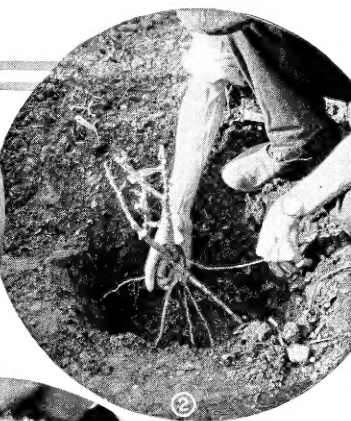

Best for Roses is Protexall Spray or Dust, a complete insect spray and fungicide. It stimulates plant growth and is harmless to foliage or blooms. It is convenient, easy and pleasant to use and is triple acting. It can be purchased at most seed stores or in any garden department of general stores. If you cannot secure it locally, please write to us and we will secure it for you.
